Messrs. Bosler & Co.
HAVE JUST RECEIVED
From LEE'S PATENT and FAMILY MEDICINE Store, New York,
A FRESH SUPPLY,
OF THE FOLLOWING GENUINE
MEDICINES.

A sovereign remedy for Colds, obstinate Coughs, Asthmas, sore throats, and approaching Consumptions, and most disorders of the Breast and Lungs.

The celebrity acquired by this medicine through the U. States, for speedily removing coughs, colds, hoarseness, &c. exceeds all former examples. The following recommendation, selected from a very numerous list, will fully confirm what has been said of its unparalleled excellence.

"*To* H. LEE.

"Being desirous to make public, for the good of others, the excellent quality of HAMILTON'S ELIXIR, prepared by the late Mr. LEE, I have sent you the following account of the benefit I have received from it, which I hope will induce others to give it a trial. In consequence of a bruise on the breast, received from a fall, my health grew bad, my breath being difficult, and frequently I have had suddenly to rise up in my bed, with all the horrors of immediate suffocation. Add to these, constant pain in my breast, a cough, a great loss of flesh and strength, and you may conceive that my symptoms evidently indicated an approaching consumption. The advice of a most eminent physician was resorted to, and afterwards a second was called in, but without giving me any relief. Another physician who knew me, and the circumstances of my case, advised me to give "*Hamilton's Elixir*" a trial, saying he had used it in his practice, and always found it to do much good. A bottle was procured, and I found relief before I had taken half of it. I continued to use it, and was soon strong enough to attend to business. On taking cold, some of my former symptoms returned, but are always removed by a dose or two of the Elixir.

"GEORGE BRENER, JR.
"*No.* 21, *Budd street, Philadelphia.*"

HAMILTON'S ELIXIR,

Will prove a valuable acquisition to public speakers, who may be subject to temporary hoarseness and thickness of speech. In long confirmed Asthmatic complaints where a cure can scarcely be expected, *this medicine affords immediate relief*, moderating the fits of coughing, and rendering their recurrence less frequent. On children afflicted with the hooping cough, the like beneficial effects may confidently be expected.

HAMILTON'S
WORM LOZENGES.

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is so mild in its operation that it cannot injure the tenderest infant of a week old, should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders.

HAMILTON'S

The peculiar excellencies of this infallible remedy for the ITCH, over every other, are the certainty of a cure by a single application; the ingredients being so innocent as to be applied with perfect safety to the tenderest infant, and its being not only free from any offensive smell, but equally agreeable with the most pleasant pomatum.

A CERTAIN CURE
FOR THE RHEUMATISM.

POLYANDRIA,
OR,
The Essential OIL of the Cajiput Tree
A MEDICINE,

UNIVERSALLY esteemed among the East Indians, as a safe and certain cure for the Rheumatism, Sciatica, Lumbago, Epilepsey, &c. restoring vigor after laxations and sprains, giving relief in pains of the head and neck, toothache, &c. and since it has been introduced into England (which is of very late date) has been highly recommended, by some of the most eminent physicians in London, as the best and most effectual remedy for the Gout as well as the Rheumatism, by dissolving the *Coagulated Lymph*, of which these diseases are formed. In wounded tendons it is of the greatest use by preventing the juice which oozes out of them from fixing. Bruizes and sprains it infallibly cures, for it keeps the extravasated Lymph and blood perfectly dissolved, and prevents their fixing in the interstices of the vessels, till nature either takes them up by the refluent blood, or expels them through the pores of the skin.

Long contracted sprains are removed by it, and it is of the utmost service for the cramp and numbness, stiffness, or weakness of the joints. It is a most efficacious remedy for burns and scalds, extracting the fire very soon, and if used immediately, will entirely prevent them from blistering. It is excellent for a fresh cut. It is of infinite use for the sting of wasps, &c. bite of rattlesnakes, goats and other venomous animals and other insects.

The above Valuable Medicine, has been but lately introduced into Europe and America in consequence of the Tree from which it is produced, yielding its essential Oil, but in small quantities, and this chiefly monopolized by the government, owing to the great virtue it was found to possess, in the cure of Rheumatisms, &c. the proprietor has divided the original packages, and put it up in smaller bottles made for the purpose, with directions round each bottle, signed in his own hand writing; and in order to demonstrate its vast importance, has tho't proper to submit for public inspection, the following out of the numerous cures, which by this valuable MEDICINE, has been performed since its general use in this country.

Letter from Mr. JAS. WOODMAN, *near Norfolk, to Mr.* C. MULLIN.

JULY 23, 1813.

DEAR SIR—My son has been more than 8 years afflicted with a Rheumatic Complaint. The excessive pain he constantly endured, reduced him to a mere skeleton; and from extreme weakness occasioned even the joints of his legs to turn out of their sockets. A very eminent physician at Norwich, whom I consulted, informed me nothing could be done for him, and the faculty in general considered him beyond the reach of medicine. He remained in this desperate situation, till the 19th Oct. last, when I was advised to try your "*Essential Oil of the Cajiput Tree.*" Accordingly by persevering in the use of it, his joints are returned to their proper places, and he is now able to walk 10 miles with the greatest ease. Upwards of fifty respectable persons in this town, have been at my house to see my son, all who knew him, thought it impossible he ever could recover.

I am, dear sir,
Your greatly obliged friend,
JAMES WOODMAN.

Broomsgrove, Jan. 4, 1814.

SIR—I have been violently afflicted with a Rheumatic Complaint; even my fingers were so contracted, that I could neither dress nor undress myself or give the least assistance to my family.

I have only used one bottle of the *Essential Oil of the Cajiput Tree*, and by it I am perfectly restored.

Yours, &c.
E. HOUGHTON.

December 20, 1813.

SIR—A severe stroke of the palsy, 6 months ago, deprived me of my speech and the use of one side. In this desperate situation, the *Oil of Cajiput Tree*, was strongly recommended, and I thank GOD, as successfully applied. By persevering in its use a short time, I was completely restored and continue to enjoy the perfect use of my faculties, although near 80 years of age.

Yours, &c.
W. FRANCIS.

No. 14, *Arabello Row, Pimlico.*

☞ Mr. FRANCIS has held a public situation at the Guildhall of the City of Westminster, many years, and is well known to the generality of the respectable inhabitants.

Witherslatch, near Kental, January 13, 1813.

SIR—I beg leave to inform you I have been several months past afflicted with such violent pains in my hips, thighs and legs, and swelling of my joints, that I could not rest day or night; nothing that was applied gave me any relief, till a neighbor informed me of the *Oil of the Cajiput Tree*, having performed many surprising cures, sent for a bottle to Mr. Mullin, which gave wonderful relief, and by repeating the same 2 or 3 times, I am perfectly cured, and am as well as ever I was in my life.

This I have publicly given under my hand, for the good of all sufferers in like circumstances.

R. WILSON.

PITTSBURGH *Manhattan School,*

FOR

YOUNG LADIES & GENTLEMEN

MR. LOOMIS, respectfully returns thanks to his patrons for their liberal patronage since the commencement of his School in this place, and informs them and the public that he continues to teach both sexes Reading, Penmanship analytically, English Grammar, English Composition, Geography, with the use of the Globes and Maps, Drawing of Maps, Book-keeping, the Languages, &c.

The system of Education adopted in this School, will be that which is pursued in the celebrated Manhattan School, in the city of New-York, conducted by Mr. A. Picket, its successful founder; and which is acknowledged by men of the first literary reputation to be one of the best conducted Schools, in that city or in the United States. Here, about five hundred children of both sexes, comprising some of the best families in the city, constantly attend and are taught in such a manner as does the greatest honor to the teacher, and results in the happiest consequence to the pupils. It is of the utmost importance to teach children in such a manner that they will understand what they learn, and know how to apply it to the active pursuits of life. To give them words without accustoming them to attach some definite meaning to them, is, like blindfolding a man and commanding him to find a certain object; every effort leads him astray and renders him more uncertain of its attainment, so children if their minds are burdened with knowledge without understanding, find themselves uninterested in the pursuit, of course their progress in acquiring it will be but small: they must be brought to love learning if we would expect ever to teach them to good purpose, for the mind always eagerly embraces that which it previously loves.

In this School every requisite attention will be paid to the learning and amiable deportment of the pupils, and no labour will be thought too arduous to form the young mind for future usefulness and respectability in society. The education of youth is difficult and requires unwearied attention and experience, for no man is born a teacher, it is an occupation which requires many years practice to become a proficient in the business. To his many years experience in teaching an extensive School and unwearied diligence, the subscriber looks for public patronage, pledging himself incumbent on a teacher, he with confidence solicits the patronage of the public.

For terms of Tuition, References, &c. please to apply at the School Room, over Mr THOMAS ALGEO's Store, Market Street

N. B. Young Ladies will be taught plain and ornamental Needle Work, in a separate apartment, by Mrs. Loomis.

Morning Tuition will commence on the 1st of May, for Penmanship, from 6 to 8 o'clock, at Six Dollars a quarter, payable in advance

P. S. On hand and constantly for Sale, ENGLISH QUILLS of the best quality, wholesale and retail.

NOTICE.

SOME time since the subscriber gave his note of hand to WILLIAM WESTHOFF, late Sheriff of Allegheny County, in part payment of the purchase money of Seven Tracts of Land, sold by the said Sheriff for Taxes—and, whereas it appears, that the Sale was illegal, and that no title can be made me for the said Tracts of Land, I therefore give this public notice cautioning all persons from taking an assignment of said note, as I am determined not to pay it, unless compelled by due course of law.

JOSEPH DAVIS.

Pittsburgh, May 20, 1815.

The following beautiful lines from a late London paper, would not disgrace the pen of the *modern* Anacreon, and much resemble the chaste and delicate effusions of his exquisite, tho' sometimes, erring muse.

RETIREMENT.

OH! Had we some bright little isle of our own,
In a blue summer Ocean, far off and alone;
Where a leaf never dies in the still blooming bowers,
And the bee banquets on through a whole year of flowers;
Where the sun loves to pause
With so fond a delay,
That the night only draws
A thin veil o'er the day:
Where simply to feel that we breathe, that we live,
Is worth the best joy that life elsewhere can give.

There with souls ever ardent and pure as the clime,
We should love as they loved in the first golden time;
The glow of the sunshine, the balm of the air,
Would steal to our hearts and make all summer there.
With affection, as free
From decline as the bowers;
And with hope like the bee
Living always on flowers;
Our life should resemble a long day of light,
And our death come on slowly and calm as the night! [*Fed. Rep.*

Late Foreign Intelligence,

Received by the ORG [illegible], in 40 days from Bordeaux, and the Russian ship Prince Michael, in 40 days from Liverpool, arrived at New York

LONDON, APRIL 7.

Notwithstanding all the endeavours of Bonaparte to impose upon the good people of Paris, a belief that Austria is well affected towards him, and that as a proof of this, he should shortly receive back Maria Louisa from Vienna—it appears by Brussels papers, which have arrived, to the 3d inst. that the Archduchess has by a formal deed, renounced the title of Empress, dismissed all her French attendants, and instead of the green liveries of Napoleon, which are to be worn no longer, she has taken those of her own family, a much worthier distinction.

APRIL 9.

A Brussels paper of the 6th, contains an article from Geneva, which affords a most satisfactory confirmation of the insurrection in the south of France. Marseilles, Wismes, Montpelier, and Avignon, had united against the Usurper.—The Royalists had formed a camp near the Durance; and their corps had disarmed some regiments of the line, and shut up others. We have given up copious extracts from these papers, which contain numerous notices of the assemblage and march of the troops of the Allied powers towards Belgium, the Rhine, Switzerland, &c. It is expected that the French military will not long refrain from some aggression. One of their reconnoisances was recently pushed on the side of Barnes, and not retire until a flag of truce had been dispatched to the commandant.

Another set of Brussels and Frankfort papers have just arrived. The military preparations proceed on the side of Belgium with activity. The centinels on both sides are within sight of each other, and the patroles of cavalry approach within a short distance. Luxembourg and other fortresses have been declared in a state of siege. The French garrison of Landau have already been guilty of some excesses. It is not possible for hostilities to be long protracted. The Head Quarters of the allied army in Belgium was to be removed to Seas.

APRIL 10.

We have this day received a Frankfort Journal of the 3d April, It contains a spirited declaration from the Swiss Diet against Bonaparte; by which the Swiss confederation is pledged to unite with the Allies in driving him out of France.

On a survey at Plymouth, it has been ascertained that 29 sail of the line and 9 frigates, may be sent to sea almost immediately; that they are manned and in a respectable state of repair.

FRENCH FLEET AT TOULON.

The following statement of the Toulon fleet is given us by a gentleman who left that port last month only; he having travelled through France, and arrived here from the opposite coast.

In the outer bason—11 sail of the line, two of them 3 deckers, lashed along side of each other, with their lower masts in, the copper stripped off to the light water mark, excepting the Hannibal, 74, just repaired; and a new 3 deck ship, which workmen were busy in finishing. Also, 7 frigates and 5 brigs.

In the inner bason—8 sail of the line, one of them a 3 decker, all their lower masts in, and 5 frigates.

In the Rhoads—the Marseilles of 80 guns, ready for sea, waiting the arrival of the Compte de Grasse, to take him to Constantinople. It is supposed in consequence of the alteration of the state of affairs, the destination of this ship will be altered.

APRIL 15.

Capt. Staines, of the British frigate Briton, writes, that on his passage from the Marquesas, Sept. 17, 1814, he fell in with an island where none is laid down in his charts; lat. 25, 4, S, long. 130, 25, W. and found on it 40 persons who spoke English, being the descendants of Christian and other mutineers of the Bounty; who proceeded there from Otaheite, where the ship was burnt.

A man named John Adams, was the only surviving Englishman. The descendants had been brought up in a moral manner. A son of Christian's was the first child born in the island, and is now 25 years of age; and is called Thursday October Christian. The island is considered that called Pitcairn's though erroneously laid down. They had never been visited but by one ship before; and that was the Topaz, Folger, of Boston, about 6 years since.

BRUSSELS, APRIL 1.

The following accounts of the Royalists in the South of France have been received:—Their numbers amounted to 25,000 men, about 15,000 of which were tolerable, and the remainder but indifferently armed. They acted in small corps in the different departments, to distract and divide the attention of the usurper.

The force at Corps amounted to 7000 men; they expected to receive succour from the Allies, and meditated carrying Grenoble by a *coup de main.* The formidable appearance which they had assumed, and the strong positions they occupied, alarmed the Usurper, who was apprehensive that their different corps might simultaneously move upon Lyons and Grenoble.

It was these fears that had compelled him to despatch a large force from Paris to Grouchy. The royalists had formed several flying camps, and were joined by more persons than they could find arms for.

Bonaparte had but a small force in the south; it was shut up in garrisons.

A counter Revolution, or some very sanguinary scenes will take place in Paris. This belief is founded upon the following postscript of a letter, dated at 5 in the evening of the 5th inst.

"It is advisable, that women and children, and people who have no urgent business here, should get out of the way, as some terrible scenes will shortly take place."

Translated for the N. Y. Evening Post.

BARCELONA, MARCH 15.

We had the day before yesterday a dreadful scene. The annals of this city will preserve the horrible remembrance of it. Early in the morning, groups of ill-looking men ran through the streets uttering savage yells. Very soon pillage and assassinations took place. At 11, in pursuance of orders from the government, the French families quitted the city, in order to leave the Spanish territory. The populace massacred about 50 victims. The number of houses pillaged is not yet known. Several Priests are among the number assassinated. The King's Lieutenant, Colonel Velarde, was pontarded, and was thus caught in the snare that he himself had laid, for it is impossible not to perceive in this affair the secret hand of the Spanish government.

NEW YORK, *May* 26.

The Mexico, a new ship intended as a regular trader, sailed from this port yesterday, for Liverpool.

Mr. Gallaudet, one of the passengers, in the above vessel, has gone to Europe for the purpose of acquiring a knowledge of the European mode of communicating instruction to the Deaf and Dumb. He has gone at the request of a society of gentlemen in Connecticut, who are preparing to establish at Hartford a Seminary for the education of persons of this unfortunate condition. The object of this society is certainly of great importance and one which ought to receive pecuniary encouragement and patronage from the wealthy and liberal throughout our country. It is ascertained that there are nearly 100 persons in the State of Connecticut, who were born deaf, and who of course remain dumb; and probably the whole number in the U. States amount to several hundred.

Barataria Pirates.—By the following extract, it appears, that the Pirates who were lately pardoned by the President, have returned to their former infamous occupation:

Extract of a letter from one of the editors of the Baltimore Patriot, now at Washington, dated May 22.

"For the information of merchants trading to New-Orleans, it may be well to state, that Barataria has again become a scene of pillage and smuggling; but the moment intelligence of the fact reached government, and even before, orders were given for the naval force on that station to lend its vigorous aid towards the effectual execution of the revenue laws. These piratical ingrates, who hav been once forgiven by the executive who in truth fought themselves into favor, will surely receive a condign punishment for the repetition of their nefarious practices."

A Pirate captured.—By the arrival last evening of the ship Highlander, Capt. Sherriff, in 24 days from New-Orleans, we learn, that one of the United States armed vessels lately went in pursuit of one of the vessels belonging to the pirates of Barataria which had then in company a Spanish prize. The American vessel soon came up with the pirate, and after a short conflict captured her and rescued her prize. The commander of the Barratarian vessel, on finding himself overpowered, swam to the shore, and thus effected his escape.

REMARKABLE SNOW STORM.

Yesterday the snow fell six inches deep, in this town—sleighs were seen passing our streets as briskly as at almost any time during the winter.

We understand the British are going on to finish their shipping at the Isle-aux-Noix, the completion of which has been temporarily suspended.

Deserters from Canada are constantly coming in. Three or four arrive almost daily—twelve reported themselves in two days, a short time since.

Report says the British troops are embarking from Canada for Europe.

From the Boston Centinel, May 27.

We have seen Lisbon accounts to the 12th April. The Spanish armies were advancing towards France. Portugal continued neutral, Accounts from the Plate river say, that Buenos Ayres had returned to Ferdinand; and that in consequence the Cadiz expedition, which had been intended for the river, had received another destination.

POWER OF REMORSE.

The murderers of Miss Hamilton, (of Athens, Greene co.) it is stated, are at length discovered by the remorse of one of the wretches concerned in the bloody tragedy. It is said that a soldier in the company of Capt. C——, at Plattsburg, tormented by the "compunctious visitings of nature," frequently requested permission to unburthen his troubled mind to the captain, but was refused, until at length he made a relation, in writing, at considerable length, and addressed it to the officer. In that, we understand, he states, that he belonged to a gang of 12 villains in Philadelphia, who there separated, and 6 took a western and 6 a northern direction; and that the 6 of whom he was one, came up the river Hudson, stole a boat, went ashore at Athens, fell in with the unhappy victim of their brutality, abused her most dreadfully and at length killed her with a club. The names of his accomplices are given, and proper measures we presume taken for their apprehension. The wretch declares himself so miserable that he had rather die than live, and surrendered himself to justice, and was locked down and committed to the county jail in Catskill.—*N. Y. Columbian.*

PENNSYLVANIA ELECTIONS

IT is time that the hackneyed watch words of party should be given up, or changed: an honest, but uninformed yeomanry have too long had their fears kept alive by the designing demagogues of what is called the republican party, without the proper measures being adopted by the Federalists to conciliate their confidence, and to remove these groundless notions.

THERE are at least as many Federal as there are Democratic papers in Pennsylvania, and the Editors may generally be men of information and talents, yet the proper grounds are too generally neglected; far fetched subjects of abuse; tedious essays, clothed in pompous diction, or high toned *personal* invective levelled at the heads of departments, in my opinion, and not the cause of Federalism; human prejudice is composed of materials not to be destroyed by means of this kind, they become more deeply rooted; the way I should presume, would be gradually to sap the basis of these mistaken opinions, by a train of simple facts, and plain moderate reasoning, adapted to the comprehension of men whose pursuits in life, unfit them for the more subtle and complex systems of politics. Opportunities for this kind of operation, have been daily occurring, ever since the sophistical administration of Thos: Jefferson; but none so striking, so impressive as those afforded by the late imbecile and ludicrous system of Mr. Madison, which has ended in such signal disgrace, and such grinding oppression. How easy would it be to satisfy those who compose the influential part of the community, the native Americans, that the cause for which the late war was declared was insufficient; or if sufficient, how plain, how self-evident the fact, that we have gained no redress, not even the slightest shadow of compensation; and the war we have since begun against Algiers, we venture to predict, (tho' certain we are of undergoing the fate of Cassandra,) will have a similar useless, and may be ludicrous termination; on the known timidity and want of energy in our government, we found this opinion Now from the great mass of proof against the present rulers and measures, the generality of the American population must certainly be convinced and set right, if proper steps are taken to convey this body of evidence, in a plain, candid dress; the great mass of American citizens are honest, but from causes easily explained, they have been abused, and have consequently imbibed incorrect ideas, with regard to politics. The writer of this article, lately had an opportunity of seeing this position completely tested; about 3 years since he formed an acquaintance with a number of republican young men, some of them Irish; they at first would scarcely listen to the observations of a federalist, or if they did, it was with an expression of incredulity or suspicion, the most invincible; this manner wore off by degrees, and finally at the last election for members of Congress, they voted for the federal candidate to a man; no means were made use of but what could strike the plainest understanding; their attention was merely called to the passing events, and both sides of the question sincerely placed before them; they became convinced and honestly acknowledged their error. On a certain occasion the young Irishman declared he had always looked upon the Federalists as a class of men constantly intriguing and plotting to injure the poor, and to establish tyranny; but during the progress of the war, when he found the Volunteer Corps generally composed of FEDERALISTS; when he understood the most brilliant General Officers, and all the Naval Commanders to be of the same class, he felt convinced he had been abused, and resolved for the future to think for himself. There are undoubtedly many young men, and old too, in our State in the same situation as the young Irishman; they only require a few lights to act in the same way. It is the duty then of the sincere in our cause to be on the alert, and to do what they never have done yet, viz: to be alert *in time.* This is all that is wanting, to give us a powerful representation in Congress, and probably a Federal Governor next election.

The Vincennes Western Sun, of [illegible] 20th May, says, "On Saturday the 13th inst. about the break of day, Lt. Morrison, with 15 men, was surprised, and his party dispersed by a party of Indians between Busseron and fort Harrison—the Lieut. and 3 men have come in—5 bodies have been found, and 3 are still missing. This mischief is supposed to have been done by a party of between 20 and 30 Ottawas and Pottawatamies."

From the Buffalo Gazette, May 23.

Fort Niagara given up.—Yesterday Fort Niagara was evacuated by the English, and was taken possession of by the American troops. This event has been protracted to an unreasonable length; but, it is to be explained, we learn, in this way; Major Gen. Murray, Governor of Upper Canada, sent a despatch to Sackett's Harbour in April last, for Major Gen. Brown, notifying the General that he was authorised and ready to give up Fort Niagara, according to treaty; this despatch reached the Harbour a few days after Gen. Brown left that place for Washington.

The mails now pass to Lewiston; and will shortly be extended to the fort.

Captain Craig, of the artillery, is assigned to the command of Fort Niagara.

We understand that the following British regiments are ordered to proceed to Europe immediately—Royal Scots, 2d batt.—6th regt. 1st do—82d do. 1st do—90th do. 1st do—97th do.

We have this spring witnessed a most remarkable season: within a week past we have had frost successively, and one night ice! The weather has improved considerably within a day or two, and vegetation has begun to put forth. There appears to be a *great* excess of water in the earth; several marshes and swamps in the county of Genesee, are now quite inundated, which in ordinary seasons are covered with verdure.

A letter from Montreal, dated the 6th of May states, that there were in the Canadas, according to the military list at that post, several hundred American deserters, mostly active industrious men, who wished to return to their country.

A WOMAN FOUND.

By a letter from Adam Johnston, Esq. of Coshocton, state of Ohio, to Messrs. Johnston and Clark, it appears, that on the 14th April some boys in crossing a branch of Killbuck creek, discovered under a cliff or rock something lying covered with leaves, which was finally found to be a Woman, almost in a state of nakedness, and nearly famished with hunger and cold. She could not give any account of herself, having lost the power of speech, and is supposed to be French. She has been clothed and taken care of by the township, and it is supposed she will recover.

It is stated that the Secretary of the Treasury has instructed the Collectors of the customs to receive in *payment* of duties nothing but *treasury notes or specie.* The treasury notes are at present about par, in the stock market.

We understand that Com. Chauncey has been appointed to the command of the Washington, of 74 guns.—*Phil. Gaz.*

AFFAIRS OF ST. DOMINGO.

Duplicates of papers have been received from the territory occupied by Hayti by Christophe, which confirm the information, that the rival black and yellow chiefs of the island continue in their ancient enmity. Christophe says he actually sent one count (Limonade) to negociate an alliance with Petion, for the mutual protection against the arts and arms of France, whose emissaries had been detected; but which Petion disdainfully rejected. This has given the Ex-Emperor now King Christophe occasion to brand Petion as being sold to France, [Bonaparte] and to republish one of his usual flaming, wet with addresses to his army and subjects, calling on them to fight for glory and make Hayti one vast carnp. "We," says Christophe, *will* live and die free; and if the latter, he tells his followers "Take my bones from the tomb and they shall again guide you to victory, cause you to triumph over our implacable and eternal enemies"—the French [*Boston Centinel*]

A late English paper says, "Government means to give great encouragement to persons who are desirous of proceeding from the United Kingdoms for the pupose of settling in the Canadas. It is said that a free passage *and provisions* during the voyage at government expense, will be provided for settlers, and that they will not only be put in possession of Grants of Land, proportioned in extent to the means which they may possess of cultivating them, but that they will be allowed rations and other indulgencies for the time which may be required to enable them to bring their lands into cultivation."

ST: LOUIS, MAY 20.

Every day affords a new proof that the Rock river Sacks intend to continue the war. They have been notified of the publication by the military Commandant of this district, as well as by govs. Clark and Edwards; yet they still continue their war parties on the frontiers of St. Louis, and murder all those who are so unfortunate as to come within their reach.

Doctor CHISHOLMS,

Anti-Bilious Pills,

OF A QUALITY

Superior to any thing of the kind ever offered as a

GENERAL MEDICINE,

IN THIS COUNTRY,

Now prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excrutiating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails; in which case, the dose may be increased according to the strength or constitution.

The *Dysentery*, *Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY in Pittsburgh, by

Doctor Handy's,

WORM DESTROYING

LOZENGES,

A safe and efficacious Medicine for destroying and bringing away

WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time. We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above valuable Medicine is sold only by

J. P. & J. W. SKELTON,

at their wholesale and retail Drug Store, at the corner of Wood and Third Streets, Pittsburgh.
